Other plans may be accepted. Please call our office to confirm your plan is participating.

Please refer to the **Insurance and Billing Policies** (PDF).

NOTE: Insurance pre-authorization is not a guarantee of payment. Each procedure is subject to your particular plan's individual provisions and exclusions.

Pain Management services usually are covered by most major insurance plans as well as Workers' Compensation and Medicare. Since some insurance carriers may require a referral from your primary care physician, be sure to check with your insurance advisor before scheduling an appointment.

**If your plan does not cover pain management services, you will be responsible for those charges.**
